DISCUSSION

Tenant representation services

Prime Philippines described 13 years in business and nationwide reach. Its tenant representation service includes site sourcing, due diligence, lease negotiation, and support through store opening.

Expansion goals and site approvals

Marco aims to open at least three stores per year. He said almost 20 letters of intent had been submitted without approval, citing location mismatch and feasibility. He noted that familiarity with JFC requirements could help.

Priority locations and site requirements

Marco prioritized Metro Manila, particularly Cubao and Manila, and was open to Rizal where feasible. Candidate locations discussed: SM Cubao, Green Hills O Square, Avenida Manila, Vertex 1 San Lazaro, and Cainta Junction. Marco requested listings that meet Mang Inasal's requirements.

Potential Clean Fuel referral

Marco described his gas station business, Clean Fuel, and offered to refer Prime Philippines to its business development team. Prime Philippines expressed interest in exploring the opportunity.
